# PETER PARKER: THE SPECTACULAR SPIDER-MAN

So what's happening now? Or should I say...WHEN'S happening now?

Heh, good one. But, hopefully, Spider-Man, his sister Teresa (recently confirmed as a true Parker), and J. Jonah Jameson (former Spider-foe, current Spider-friend) have made it back to their native timeline.

So we can officially call this one an "excellent adventure" rather than a "bogus journey"?!

You can do that unofficially, I guess. They still have to stop the Vedomi, though.

Right--the robot aliens that "rescue" all artificial intelligences from a planet, destroy everyone else, then leave. The Tinkerer summoned them in SPECTACULAR SPIDER-MAN #300. But Spider-Man's got that capsule! From the Vedomi scout that befriended the Tinkerer in the alternate past! So he's just got to take that, and then...do... He'll just...put it in water? And grow a giant friendly robot?

I wish.

What's going on with you today, pal? We usually have a zippy back-and-forth thing. Oh, wait a minute--is this comic going to be lame?

No, man, it's really great. It's just... Meet me back here next month--you'll get it.
