GUARDIANS OF THE GALAXY

PREVIOUSLY ...

Hela, the Asgardian Goddess of Death, and the Black Order attacked the galaxy's greatest warriors to recover Thanos' body. The survivors re-formed the Guardians of the Galaxy. Meanwhile, Thanos' brother, Eros, assembled the Dark Guardians, a group of cosmic warriors set on killing Gamora to prevent Thanos from uploading his consciousness into her and rising again.

The Dark Guardians captured Gamora and brought her to Eros for execution—only for Hela to reveal that Gamora was never the intended host... Eros was. The Guardians launched a rescue mission with the help of the Inhuman Lockjaw, but they were too late. Eros was overcome by Thanos' consciousness, and with Hela in possession of Thanos' physical body, the body transfer has begun—Thanos is back!
